

# For the Next 50 Years

For more than 50 years, Berean Christian High School has stood in the gap for the benefit of students who aspire to live their lives as Christ's men and women no matter what challenges the world may bring. To do that for the next 50 years, we need:

- Friends whose help begins with us and for us in prayer;
- Course offerings in the best of Christian Civilization including literature, history, science, industry, music, sports and the arts;
- Teachers who can afford to spend their entire careers at Berean;
- Scholarships for students who could not otherwise afford a Christian education; and,
- Facilities to support a larger and more educationally diverse student body.

While our operations are regularly and comfortably well-supported by tuition, we need substantial additional funds for broader course offerings, scholarships and additional locations. It is for the future that we are launching our Next Fifty Years campaign.

## ***Funding Specifics***

To do these things well, we currently believe we will need:

- A campus refresh and that would add two classrooms, improve athletic facilities, modernize existing classrooms and allow expanded course offerings
- Additional faculty for Science, Technology, Engineering and Math
- Teacher compensation adequate for both current income and future retirement
- New facilities for the Performing Arts and, possibly, for Industrial Arts
- Annual funding from our Endowment sufficient to provide scholarships for less affluent students **AND** maintain affordable tuition for all students.

## ***Opportunities to Help***

For our Next Fifty Years campaign, we are looking for friends who will work with us in the following areas:

- Facilities and Finance. Team charged with exploring the cost of various options and determining the total funding the campaign requires over the next 3 to 5 years
- Prayer. Team charged with regularly praying for Berean and for its students, staff, alumni, board members and other friends.
- STEM, Industrial Arts and Performing Arts. Teams charged with evaluating expanded course offerings in these areas and identifying potential locations and facilities.
- Alumni and Community Relations. Team charged with engaging alumni and the broader community *primarily as an outreach to those groups* so that they benefit from Berean's future growth
- Fundraising. Team charged with collecting data from other teams, establishing a campaign goal, recruiting technical giving support and ultimately sharing the giving opportunities with our community of friends.
